Scope of the AI Agent Industry

---

1. Industry Overview

- **Market size & growth**

  - Global market was **~$5.3 B in 2023** and is forecast to reach anywhere between **$50 B to $216 B by 2030–2035**, with a CAGR ranging from **40%–46%** across various research houses (alvarezandmarsal.com, globenewswire.com, smythos.com, ft.com).

  - North America currently leads (~40% share), followed by fast growth in Asia-Pacific .

- **Key players**
  Major vendors include **Google, Microsoft, IBM, AWS, Meta, Amazon, NVIDIA, Salesforce**, and specialized firms like Cognigy, Nuance, LivePerson (openpr.com).

---

2. Future Potential

- **Upcoming trends**

  - Growth of **agentic AI & autonomous workflows** – agents acting end-to-end on goals (uptech.team).

  - Rise of **multi-agent systems** orchestrating collaborative workflows (openpr.com)

  - Edge & IoT integration: AI agents operating directly on devices (inoxoft.com)

  - Mainstreaming of **AI Co-pilots** embedded in daily tools (theriseofthedigitalworkforce.cio.com)

  - Priority shifts: **multi-modal, memory-augmented, privacy-first** AI (experro.com)

- **Opportunities & catalysts**

- ○ Agent marketplaces, vertical SaaS solutions, and generative-AI-based agents (marketsandmarkets.com)

- ○ Strong ROI from automation (~50% gains in service, HR, sales) (alvarezandmarsal.com)

- ○ Enterprise budgets expected to shift from pilots to full-scale adoption

---

3. Use Cases (5 Strong Examples)

1. **Customer Service & Virtual Assistants**
   Automate support, handle queries, route escalations.

2. **HR & Employee Support**
   Agents onboard teams, answer questions, and manage workflows (e.g., Lattice's HR agents) (grandviewresearch.com, businessinsider.com).

3. **Sales & Marketing Copilots**
   Multi-agent workflows can handle campaigns, segmentation, content generation (theriseofthedigitalworkforce.cio.com, experro.com).

4. **Edge-powered Automation**
   Agents on IoT devices manage real-time tasks (e.g., factory robots, predictive maintenance) (grandviewresearch.com, inoxoft.com).

5. **Healthcare Diagnosis & Compliance**
   Custom agent platforms (e.g., Hippocratic AI) support clinicians, patient queries (grandviewresearch.com).

Each use case will in the report include:

- Description of task

- Agent design and implementation

- Impact metrics (e.g., cost savings, speed, satisfaction)

---

4. Supporting Data

- **Market research**

    - GlobeNewswire / ResearchAndMarkets (globenewswire.com)

    - Business Research Company / OpenPR (openpr.com)

    - Precedence Research, MarketsandMarkets, LinkedIn industry summaries (linkedin.com)

- **Industry blogs & insights**

    - Uptech, Inoxoft, Experro, CIO guide, SmythOS (uptech.team, inoxoft.com)

- **News articles**

    - Lattice's HR agent platform article

    - Meta & Scale-AI investments (investors.com)

    - OpenAI revenue update

- **Videos/articles**

    - We can integrate YouTube videos if needed for illustration.
